

Appendix 3:

Yanqing ITP COVID-19 Prevention and Control Policy

1. General Policy on Exit and Entry Management

All participants from overseas need to **conduct a daily health monitoring at least 14 days before departure** for China. They must provide true and actual information on their health status and update such information accordingly. They must declare that they have no contact with any person infected with COVID-19 and no symptoms of fever and/or cough within the last period of 14 consecutive days before aboard. They are also required to provide their activity plan in China. All participants from overseas are required to minimize their stay in China . They are required to leave China at the earliest convenience after the completion of their mission or work. Nucleic acid testing services and test proof will be provided to persons who may need them before departure from China.

2. Entry Management Policy for Yanqing ITP and Sanctioned

Competition participants

A category-based management and relative prevention and control measures will be implemented for all related personnel of Test Event.

For Athlete

Athletes should get fully vaccinated* at least 14 days before departure for China generally. Before boarding, all athletes are required to make a personal health declaration (as to whether they have been exposed to any

person infected with COVID-19 and whether they have any symptoms of fever and/or cough). They must also provide certificate of negative nucleic acid test results and negative IgM anti-body test results for COVID-19. Both tests must be conducted within 48 hours before boarding.

Athletes are required wear a medical protective mask (N95 or KN95) for the whole duration of flight, except when eating or drinking. Other personal protective measures such as wearing face shield or goggles and regular hand washing are encouraged.

At the first port of entry (primarily Beijing), if the body temperature tested is equal or higher than 37.3°C, the athlete will be transported to a designated hospital for further testing, diagnose and treatment. Otherwise, they will go through a collection of nasopharyngeal swab for nucleic acid testing . After the sample collection, they will proceed through dedicated passages and directly go to the hotel by dedicated vehicles . Pending the test results, they must refrain from moving around in the hotel. They will be exempted from quarantine with the negative test result.

For Other People Essential to come

The management policy for athletes will apply for other people who get fully vaccinated. And they will proceed directly to the hotel without quarantine if they have no related symptoms such as fever and get a negative test result of COVID-19.

As a step to implement China's COVID-19 prevention and control protocols, all participants from the same country will be assigned as much as possible to the same areas, buildings or floors. They must strictly comply with the COVID-19 prevention and control protocols and bubble-to-bubble administration measures in training, competition and other activities. They must not leave their residence, training or competition venues for

participation of any event or activity unrelated to the ITP and Sanctioned Competition. Daily health monitoring and regularly nucleic acid test will be conducted during their stay.

For those who are not fully vaccinated

These people will need to quarantine for 21 days at a designated location after their entry into China. The Chinese entry policies and COVID-19 prevention and control policies at that time shall apply .

*Any vaccine approved by the WHO, or those already within the WHO EUL/ PQ evaluation process will be recognized/accepted.

Please refer to the WHO official website below, which listed the "Status of COVID-19 Vaccines within WHO EUL/ PQ evaluation process" as of 15 July. <https://www.who.int/teams/regulation-prequalification/eul/covid-19>

3. Bubble-to-bubble Management Policy

A bubble-to-bubble management policy will apply to all participants travelling from overseas. Strict prevention and control measures will be applied in every step of their stay, including arrival and departure, transport, accommodation, food and drinks, training, competition, meetings and other events. They shall not go outside of the bubble, take public transport, or interact with people outside the bubbles. The same bubble-to-bubble management policy will also apply to Chinese athletes, official, working and support staff who will or may have close contact with those participants coming from overseas.

4. Emergency Response Policy

Yanqing National Sliding Centre will have its own emergency response plan according to arrangement and enhance the emergency drill. In case any person, object or environment is tested positive, an expert panel, which is composed of epidemic control and sports professionals, will conduct a prompt analysis and make a timely decision as to whether the person in question is eligible for continued Games participation(stop competing in principle) and whether the whole competition continues. The situation will be reported to LOC, IF and related organizations and agencies and the panel will deal with such cases in a science-based, targeted and timely manner so as to promptly contain any potential spread of infections.

5. COVID-19 Control on an On-going Basis

During their stay in China, all participants are required to strictly comply with the prevention and control protocols, such as mask wearing, frequent hand washing, constant room ventilation, eating alone, cleaning and disinfection, cough etiquette, and physical distancing. They are also required to accept the supervision and follow the advice and guidance of the organizing committee staff.
