Athlete's profile:

All athletes participating in an IBSF event have an athlete's profile on our website:

<https://www.ibsf.org/en/athletes>

New features:

The athlete's profile is directly linked to each news which we have published on our website concerning the athlete. Additionally, you will find a collection of pictures you may use free of charge for editorial purposes.

A medal count of World Cups, World Championships and Olympic Winter Games has been the latest feature added to the athlete's profile.

Social Wall:

Additional information about the athlete's activity can also be found on our Social wall (www.ibsf.org) combining the Social media activities of certain Bobsleigh and Skeleton athletes.

You can follow all World Cup and World Championship races on our live-results (www.ibsf.org) which gives you all timing related information such as start times, split times, speed and finish times.

Live stream:

All World Cup and World Championship events will be broadcasted live on our Youtube Channel (<https://www.youtube.com/user/bobskeletv>) with the live commentary by Martin Haven. In Latvia, LTV broadcasts all events exclusively on TV or in its own livestream. NBC / Olympic Channel (USA), CBC (Canada) and SRG (Switzerland) are showing some World Cup races live, in Germany ARD and ZDF broadcast live or with a short delay.
