Munich, 9 December 2016

## **IBSF Statement “McLaren Report” as published on December 9<sup>th</sup> 2016**

The IBSF deplores any action that attacks the values of sport and of clean athletes.

At today’s meeting its Executive Committee decided to act promptly and decisively following the publication of the final McLaren Report. Therefore the IBSF will need to read and digest the report, the IP Evidence Disclosure Package (EDP) and gain IBSF-specific information from WADA. Highest priority and urgency is given by the Executive Committee to this matter.

Once all information has been collected and evaluated the IBSF will report on actions related to the McLaren Report.
